Notice of Allowance

This is the Notice of Allowance for application number 10/606,852 Mechanical Arm and Counter Balance Assembly, filed on . Claims 2, 3, 6, 21-24 are allowed.

Drawings

The drawings are objected to because Figure 4A shows pivot point (144) as being seen through the yoke. The line should be changed to a phantom line as it connects arm (142) behind the yoke. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Also, Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach wherein the yoke includes at least a second slot perpendicular to the first slot and a pin watched to a fixed reference through the second slot to guide the motion of the yoke as it translates.

The reference 5697757 to Lindsay contains a translating yoke (36), which contains a first slot (38) and a wheel (37) in a track. In order to meet independent claim 2, the device as taught by Lindsay would require more than just a reversal of parts, it would require making the fixed track to be transversely slideably with the yoke and the wheel which would become fixed in place pins, attached to the fixed reference, the modification of which lacks motivation and would require hindsight reasoning.

Art Unit: 3632

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
